### **2005 – 2007 : Head of ICT Integration, All Saints' College**

Helping the College to maintain its reputation as a leading edge school, with the State's most mature student notebook program. I am responsible for developing innovative curriculum and working with staff and students to enhance learning through ICT using the latest in Technology-based resources and tools.

### **1999 – 2000 : Learning Technologies Consultant, Catholic Education Office**

Delivery of Professional Learning Support to Middle and Secondary schools. Research on ICT-based learning methodologies. Distribution of "Computers for Schools" program funding. Construction of support materials.

### **1995 – 1999 : Middle School Year Coordinator, Science Teacher, Mandurah Catholic College**

Teacher of Science (Yr 8-12), Information Systems (Yr 11). Responsible for the planning development and coordination of the Year 8 Learning Teams. Special responsibility for ICT integration.

### **1990 – 1993 : Field Applications Specialist, Promega Biotechnology**

Technical specialist with responsibility for clients in hospitals, forensic units, university research centres. The main duties were provision of detailed scientific advice, setting up new laboratories, trouble-shooting, delivery of small group and large group technical seminars, running training sessions and research workshops.

### **1988 – 1990 : Post-Doctoral Fellow, Glasgow University**

Research and development of a canine model for *in vitro* fertilisation. Grant application writing, community liaison and team management.
